

# Drying mat duo

with silver yarn

Dimensions  
**34 x 52 cm**

## PRODUCT DESCRIPTION

This new, innovative drying mat made from microfiber sponge cloth material with silver yarn retains its antibacterial effect even after several washes, minimizes unpleasant odors and gives permanent protection from microbial contamination!

Made from sponge cloth material with silver yarn, it is extremely absorbent and has a permanent antibacterial effect. It is also shape-retaining and ensures seamless drip off.

### SILVER YARN MICROFIBERS

Universal microfiber cloths provide 99.9% surface sterility! Bacteria and germs are removed from the cloth by washing. There are two applications that remove these from the fibers before this:

- 1 Antibacterial design. Germs remain in the cloth but are unable to multiply further.
- 2 Cloth design with pure silver – germs are killed off due to this.
