* Approx data

This high tech microfiber duo pad is the latest development in the field of pads! The microfiber duo pad retains its antibacterial effect due to the use of silver particles in the individual microfibers. The duo pad has been tested and certified by the “**Hohenstein Institute for Hygiene, Environment & Medicine**”, which has shown it to have a higher than average antibacterial effect.

TO USE

Can be used universally on all sealed surfaces. Excellent for ceramic glass cooker hobs or suitable as a washing up pad. Caution when using on stained, painted and waxed surfaces!
