

Microfibre Wineglass- & Decanter Cloth

Antibacterial | 1-Pack

PRODUCT DESCRIPTION

The risk of transferring bacteria is especially high for wine glasses. Using the new microfibre wine glass and decanter cloth helps kill germs and ensure hygienic cleanliness without bacteria. The cloths are made using ultra microfibrils that are split extremely finely to significantly accelerate the capillary effect. Leaves a streak-free shine with no lint residue for quality glassware, carafes, decanters, mirrors, glass surfaces and ornaments, with just one wipe! Deep-cleaning effect leaves no germs and uses no chemical substances. Wash glasses and polish dry with the cloth.

Above-average antibacterial effect.

Hohenstein certified (HC-349804)

The Wine Glass & Decanter Cloth has special antibacterial properties for a long-lasting effect.
