

# NETEX Cleaning Paste eco

## Netex Eco Series

### PRODUCT DESCRIPTION

A highly concentrated cleaning paste for removing stubborn surface stains. The specially developed formula made from microfine marble powder, chalk, various polishing alumina and natural soaps made of plant oil provides perfect cleanliness and freshness.

For multi-purpose cleaning including use on ceramic hobs, stoves, ovens, pots, sanitary areas, windows and frames, camping equipment, boats, chrome steel and hard plastic surfaces. The formula can also be tailored specifically for the relevant application or customer. The cleaning paste is a 100% natural product and biologically degradable.

### TO USE

The cleaning paste is economical to apply. Dampen a microfibre cloth or sponge with water, apply the cleaning paste, foam and clean the dirty surface. Rinse off with clean water. Use the cleaning paste to clean, polish, maintain and preserve in just a single step.

**Certified and registered with the austrian European Eco-Label.**
