

Glass Cleaning Set

Pro Cleaner Serie

Streak-free
cleaning!

PRODUCT DESCRIPTION

The MERX Pro Cleaner glass cleaner has been designed specially for professional glass, window and mirror cleaning using microfibre products. The window mop⁽¹⁾ made of microfibre glass and window material guarantees streak-free shine in one wipe. The high-quality microfibre duo, the Strong window mop⁽²⁾ is ideally suited for pre-cleaning substantial, persistent dirt. Suitable for use with the trapezoid mop holder (26 cm).

TO USE

Thinly spray spray cleaner onto the glass, allow to take effect briefly, and remove with the dry window mop. If there is substantial dirt, pre-clean with the dirt mop.

Spray cleaning: depending on the level of dirt, add ½ (12.5 ml) to 1 (25 ml) dosage cap of concentrate to a 500 ml spray bottle. Top up with cold water. This gives you up to 40 bottles of cleaner.

Normal cleaning: Add 1 dosage cap (25 ml) of concentrate to 4 litres of cold water.
