

Wineglass & Decanter Cloth Microfibre/Bamboo

PRODUCT DESCRIPTION

This extremely soft and smooth wineglass and decanter cloth ensures deep cleaning power. The cloths are made of ultrafine microfibres in combination with bamboo fibres and guarantee above-average lifetime. The capillary action is enhanced through extra fine splitting. Leaves a streak- and lint-free shine on fine glassware, carafes, decanters, mirrors, glass surfaces and ornaments with just a single wipe! Deep-cleaning action leaves no germs without the use of chemicals and leaves no water or limescale deposits. The ideal of 50 x 70 cm size means even large volumes of glassware can be dried quickly and effectively. Moisture and fingerprints are removed rapidly and without residue from all sensitive glassware, smooth and high-gloss surfaces.
